## EDUCATION

Information Technology  
KABUL UNIVERSITY  
2019 - 2023  
  
SETARAGAN-E-TAMADON  
HIGH SCHOOL  
2007-2018

## SKILLS

JavaScript  
Typescript  
Nest.js  
Flutter  
PHP  
Laravel  
Next.js  
Vue.js  
React.js  
MySQL  
PostgreSQL  
MongoDB  
Framer motion

## PROFILE

Experienced Full Stack Developer proficient in JavaScript/TypeScript, React, Next.js, and Nest.js. Specialized in crafting efficient and scalable solutions for diverse web applications. Committed to continuous learning and innovation, with a passion for delivering exceptional user experiences.

## EXPERIENCE

### SOFTWARE DEVELOPER

NETLINKS LTD | Shahr-e-Naw, Kabul, Afghanistan . 2023 - present

- Collaborated with cross-functional teams to develop and maintain various applications, including jobs.af, a superior job announcement and hiring platform, and weena.af, a blood distribution system in Afghanistan. Utilized the MERN stack and Vue3 to enhance functionality and user experience.
- Worked as part of a team to integrate APIs from Amazon, Shopify, and proprietary systems to gather and display real-time data across various projects.
- Designed and implemented user-friendly, responsive interfaces to ensure accessibility across various devices and screen sizes, in collaboration with the design team.
- Developed backend services with Node.js and NestJS, ensuring robust data management and security, alongside other backend developers.
- Participated in defining project requirements and delivering solutions on time, optimizing application performance in a team setting.
- Conducted regular code reviews and maintained clean, maintainable code with detailed documentation as part of the development team's best practices.
- Utilized technologies including MongoDB, Express.js, React, Node.js, Vue3, Postgres, MySQL, JavaScript, HTML, CSS, and RESTful APIs, working closely with other developers to ensure seamless integration and performance.
- Boosted productivity by 15% through exceptional task prioritization and completion of urgent tasks.

### SOFTWARE ENGINEER

ITEX SERVICES | Kart-e-3, Kabul, Afghanistan 2021 - 2023

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) for Itex Services.
- Contributed to the design, architecture, and implementation of scalable and efficient software solutions.
- Document and test old and new software applications.
- Collaborated with cross-functional teams to translate project requirements into functional code and deliver high-quality software products.
- Implemented innovative features and solutions to enhance user experience and meet project objectives.
- Demonstrated strong problem-solving skills and a proactive approach to resolving technical challenges within MERN stack applications.

- Conducted regular code reviews and provided constructive feedback to team members, fostering a culture of collaboration and continuous improvement.
- Actively participated in sprint planning, stand-up meetings, and retrospectives, ensuring alignment with project timelines and objectives.
- Utilized best practices in version control with Git and GitHub, ensuring codebase integrity and facilitating seamless collaboration among team members.
- Maintained up-to-date documentation for APIs, data models, and architectural decisions enabling efficient onboarding of new team members and smooth project transitions.

**Web Developer**

SETARAGAN-E-TAMADON HIGH SCHOOL | DASHT-E-BARCHI, KABUL, AFGHANISTAN

2020-2021

- Collaborate with senior developers and designers to translate project requirements into functional code.
- Assist in the design and implementation of user interfaces and website layouts.
- Write clean, efficient, and well-documented code using HTML, CSS, and JavaScript.
- Perform testing and debugging of web applications to ensure optimal performance and reliability.
- Stay up-to-date on emerging technologies and industry trends, and make recommendations for adoption where appropriate.
- Contribute to team meetings, brainstorming sessions, and code reviews to foster a collaborative and supportive work environment.
- Assist in maintaining and updating existing web applications and websites as needed.
